SIGNIFICANT ACCOUNTING JUDGMENTS AND USE OF ESTIMATES

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods.

Significant assumptions that management has made about current unknowns, the future, and other sources of estimated uncertainty, could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made. Such significant assumptions include, but are not limited to, the following areas: recovery of receivables and going concern.

The Company's significant judgments and estimates are disclosed in Note 2 of the audited financial statements from inception on April 8, 2020 to the period ended December 31, 2020.

CHANGES IN ACCOUNTING POLICIES

FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, accounts payable and accrued liabilities and due to related parties. It is management's opinion that the Company is not exposed to significant interest risk arising from the financial instruments. The Company will be exposed to some credit risk in relation to its future amounts receivables balances, however, most amounts receivables will be in relation to sales tax due from the Canadian government. Credit risk is managed for amounts receivables by seeking prompt payment, monitoring the age of receivables, and making follow up inquiries when receivables are not paid in a timely manner. The Company does not engage in any hedging activities. Financial instruments do not generally expose the Company to risk that is significant enough to warrant reducing via purchasing specific insurance or offsetting financial instruments. Further discussion of these risks is presented in Note 6 of the Company's audited financial statements, from inception on April 8, 2020 to the period ended December 31, 2020.

RISK FACTORS AND MANAGEMENT'S RESPONSIBILITY OVER FINANCIAL REPORTING

Risk Factors – General

Early-stage entities face a variety of risks and, while unable to eliminate all of them, the Company aims to manage and reduce such risks as much as possible. The Company's ability to mitigate risk, without any cash at its disposal, is, however, extremely limited.

Selecting investments is a competitive process. The Company seeks to maintain an appropriate balance by carefully considering risks to ensure an investment's level of risk is commensurate with the Company's assessment of the project's potential.
