Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine month periods ended September 30, 2021 and 2020

(Expressed in Canadian dollars)

1. Nature of operations and going concern

Millennial Precious Metals Corp. (“Millennial” or the “Company”) (formerly Millennial Silver Corp.) was incorporated under the laws of the Province of Ontario on October 28, 2019. The Company is engaged in exploration and evaluation of mineral properties in Nevada, USA. The head office and registered address of the Company is located at 350 Bay Street, Suite 400, Toronto, Ontario, M5H 2S6.

The common shares of Millennial began trading on the TSX Venture Exchange on May 5, 2021 under the symbol “MPM”.

The condensed interim consolidated financial statements for the nine months ended September 30, 2021 and 2020 have been approved for issue by the Board of Directors on November 24, 2021.

Going Concern

The financial statements have been prepared on a going concern basis. The going concern basis assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company’s ability to continue as a going concern is dependent upon attaining profitable operations, and, if required, the ability to raise equity financing to meet expenditure commitments. There is no assurance that these activities will be successful. The combination of these circumstances set out above represents a material uncertainty which may cast significant doubt upon the Company’s ability to continue as a going concern. However, the Company is managing the business and operations so that it will have adequate resources to continue in operational existence for the foreseeable future. For this reason, the Company continues to adopt the going concern basis in preparing its financial statements. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses, and the balance sheet classifications used that would be necessary if the going concern assumptions were not appropriate. The Company had a net loss during the nine month period ended September 30, 2021 of \$32,782,435 and an accumulated deficit of \$34,768,926.

In addition, the Company began operations after the World Health Organization categorized COVID-19 as a pandemic. Financial markets around the world have been extremely volatile due to events and conditions resulting from this pandemic and as a result, the volatility could also impact the Company’s ability to continue its operations as a going concern, and the Company’s ability to obtain financing on a go forward basis.

2. Basis of preparation

Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), and on a basis consistent with the accounting policies disclosed in the Company’s annual audited financial statements for the year ended December 31, 2020, except as outlined below in “Recently adopted and applicable accounting standards and policies”.

2. Basis of preparation (continued)

Basis of presentation and currency

The notes presented in these condensed consolidated interim financial statements include in general only significant changes and transactions occurring since the Company's last year end, and are not fully inclusive of all disclosures required by IFRS for annual financial statements. These financial statements should be read in conjunction with the Company's audited financial statements as at December 31, 2020 and for the year ended December 31, 2020.

Presentation Currency

These condensed consolidated interim financial statements are presented in Canadian dollars and are prepared on a historical cost basis, except for certain financial instruments which are measured at fair value.

Recently adopted and applicable accounting standards and policies

Amendments to IAS 16

Amendments to IAS 16, Property, Plant and Equipment—Proceeds before Intended Use Effective on January 1, 2022, the amendments to IAS 16 require that entities are no longer able to deduct the net proceeds from selling any items from an asset's carrying amount before it is capable of operating in the manner intended by management. Instead, the proceeds should be recognised in accordance with applicable standards and in particular applying the measurement requirements of IAS 2 for the cost of those items. The Amendments to IAS 16 may impact the Company's development projects. The Company early adopted the amendment in January 2021. There was no impact to the current period or comparative periods presented as a result of the amendment.

3. Critical accounting judgments and estimates

IFRS requires management to make estimates and judgments that affect the amounts reported in the financial statements. By their nature, these estimates and judgments are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future periods could be significant.

Areas of judgment that have the most significant effect on the amounts recognized in the financial statements include:

- Applicability of the going concern assumption (Note 1)
- Determination of functional currency

Critical accounting estimates include:

- Share-based payments (Note 12 and 16)

4. Reverse takeover transaction

On April 28, 2021, the Company completed the previously announced series of transactions with 1246768 B.C. Ltd., and Clover Nevada LLC ("Waterton"), including the reverse take-over and acquisition ("Acquisition") by 124678 B.C. Ltd., of all of the issued outstanding shares of the Company, resulting in Millennial Precious Metals Corp. indirectly acquiring Waterton's interest in each of the Wildcat Property, the Mountain View Property, the Marr Property, the Ocelot Property, the Eden Property and the Dune Property located in Nevada and also a lease and option to purchase the Red Canyon Property also located in Nevada.

The transactions were effected through an asset purchase agreement dated December 11, 2020 (the "Asset Purchase Agreement") between 1246768 B.C. Ltd, the Company and Waterton and an amalgamation agreement dated December 11, 2020 between the Company and 1246768 B.C. Ltd. (the "Amalgamation Agreement").

Pursuant to the Acquisition, each share of Millennial was exchanged for one share of Millennial Precious. 1246768 B.C. Ltd consolidated its share capital on a 1.5:1 basis prior to closing of the transaction so that the holders of 1246768 B.C. Ltd shares received 1,999,999 shares of the resulting issuer following completion of the Acquisition.

In accordance with IFRS 3, Business Combinations ("IFRS 3"), the substance of the transaction was a reverse takeover ("RTO") of a non-operating company. The transaction does not constitute a business combination since 1246768 B.C. Ltd does not meet the definition of a business under IFRS 3. As a result, the transaction is accounted for as an asset acquisition with Millennial being identified as the acquirer (legal subsidiary) and 1246768 B.C. Ltd being treated as the accounting subsidiary (legal parent) with the transaction being measured at the fair value of the equity consideration issued to 1246768 B.C. Ltd.

The consideration received was the fair value of the net liabilities of 1246768 B.C. Ltd, which on April 28, 2021 was \$160,929. The amount was calculated as follows:

	Total
	\$
Accounts receivable	8,076
Accounts payable and liabilities	(169,005)
Net liabilities assumed	(160,929)
Fair value of 1,999,999 shares issued	1,000,000

Restricted Share Units

The Restricted Share Unit Plan (RSU Plan) provides for the grant of restricted share units (each, an "RSU") convertible into a maximum number of common shares equal to ten percent (10%) of the number of common shares then issued and outstanding, provided, however, the number of common shares reserved for issuance from treasury under the RSU Plan and pursuant to all other security-based compensation arrangements of the Company shall, in the aggregate, not exceed ten percent (10%) of the number of common shares then issued and outstanding. Any common shares subject to a RSU which has been cancelled or terminated in accordance with the terms of the RSU Plan without settlement will again be available under the RSU Plan. When vested, each RSU entitles the holder to receive, subject to adjustments as provided for in the RSU Plan, one common Share or payment in cash for the equivalent thereof based on the volume weighted average trading price of the common shares on the five trading days immediately preceding the redemption date. The terms and conditions of vesting (if applicable) of each grant are determined by the Board at the time of the grant, subject to the terms of the RSU Plan. RSU awards may, but need not, be subject to performance incentives to reward attainment of annual or long-term performance goals. Any such performance incentives or long term performance goals are subject to determination by the Board and specified in the award agreement.

The Company uses the fair value method to recognize the obligation and compensation expense associated with the RSUs. The fair value of RSUs issued is determined on the grant date based on the market price of the common shares on the grant date multiplied by the number of RSUs granted. The fair value is expensed over the vesting term. Upon redemption of the RSU the carrying amount is recorded as an increase in common share capital and a reduction in the liability.

The following table summarizes changes in the number of RSUs outstanding:

	Number of RSU's	Weighted average fair value
Balance, December 31, 2019 and 2020	-	\$ -
Issued	3,603,000	\$ 0.50
Exercised	(1,600,000)	\$ 0.50
Cancelled	(50,000)	\$ 0.50
Balance, September 30, 2021	1,953,000	\$ 0.50

RSU liability:

As at September 30, 2021 a liability of \$153,000 (December 31, 2020 - \$nil) has been recorded for RSUs. Out of the issuances during the year, 1,600,000 RSU's vested immediately on the grant date and 2,003,000 RSU vest in tranches of 1/3 over 3 years.

17. Commitments and contingencies

The complex nature of the mining industry, as well as the regulatory environment in which it operates can result in occasional claims, investigatory matters, and legal and tax proceedings that arise from time to time. These matters could subject the Company various uncertainties and may ultimately be resolved with terms unfavorable to the Company. This being the case, certain conditions may exist as of the date the financial statements are issued, which could result in a loss to the Company. In the opinion of management none of these matters are expected to have a material effect on the results of operations, or the financial condition, of the Company. In the event of a change in management's estimate of the future resolution of such matters, the Company will recognize the effects of the change in its financial statements at that time.
